INDEX TO VOLUME 36

AUTHORS INDEX

A

ADAMS, PHILIP E. Message from the president of the American Dental Association, 329

ALSTADT, W. R. Professional ethics, 419

ASH, ARTHUR S. Psychosomatic considerations in orthodontics, 292

B

BARNES, RICHARD E. Case report of tooth substance completely developed about a foreign body, 215

BARROW, GERALD V., AND DINGMAN, REED O. Orthodontic considerations in the surgical management of developmental deformities of the mandible, 121

BAUER, JOSEPH L. (*See* Moyers and Bauer), 572

BAUME, LOUIS J., AND BECKS, HERMANN. The development of the dentition of Macaca mulatta, 723

BECKS, HERMANN. (*See* Baume and Becks), 723

BELL, BROOKS. Office routines. Part I. Standardizing office paper work, 81; Part II. Psychological factors that bring about a more pleasant patient-parent-doctor relationship, 102

BERKSON, RALPH. Dental cement: a study of its property of adhesion, 701

BRODIE, ALLAN G. Anatomy and physiology of head and neck musculature, 831

BUMGARDNER, A. S. The dentist and the orthodontist—a study in integration, 207

C

CHENEY, EDWARD A. Heredity, growth, and observation as related to extraction procedures, 899

—. Some considerations on the diagnosis of malocclusion relative to extraction, 19

CLOSSON, DONALD A. Extraoral anchorage, its indications, use, and application, 265

COHEN, M. MICHAEL. Clinical studies in the development of the dental height, 917

D

DEVER, PAUL A. Message from the governor of the Commonwealth of Massachusetts, 593

DINGMAN, REED O. (*See* Barrow and Dingman), 121

DOLCE, JOHN J. Caries incidence in relation to orthodontic therapy, 534

E

EGGNATZ, MEYER. Third molar considerations, 445

ELSASSER, WILLIAM A. Some observations on the history and uses of the Kesling positioner, 368

ERNST, MAX E. President's address, American Association of Orthodontists, 803

F

FASTLICHT, SAMUEL. Evolution of the universal appliance, 433

FELDSTEIN, LOUIS. An instrument for measuring muscular forces acting on the teeth, 856

FLINT, WILSON R. President's address, Great Lakes Society of Orthodontists, 165

FLUHRER, A. VERNON. Some original investigations into pressure habits as etiological factors in dentofacial abnormalities, 37

FORD, JAMES W., AND FORD, WILLIAM F. Cephalometric appraisal of a treated mandibular displacement case in an adult patient, 222

FORD, WILLIAM F. (*See* Ford and Ford), 222

FULTON, JOHN T. Orthodontics as a health service, 336

FURSTMAN, LAWRENCE. Case report, 766

—. Cephalometric appraisals: their use in daily clinical practice, 403

G

GORE, SAMUEL, D. President's address, Southern Society of Orthodontists, 77

GOSMAN, S. D. Anthropometric method of facial analysis in orthodontics, 749

H

HIGLEY, L. B. Some thoughts on cephalometrics and anchorage, 135

HOGEBOOM, FLOYDE EDDY. Preparation of the child's mouth for orthodontic treatment, 302

HOUGHTON, WILLIAM G. Rehabilitation of the cleft palate patient, 342

HOWES, ASHLEY E. Class I neutroclusion, 587

J

JACKSON, ANDREW FRANCIS. Orthodontics and orthodontists, 109
—. Simplicity in orthodontic concept and treatment, 643
JAN, HOWARD H. Timesaving technique for processing retainers, 763
JOHNSON, ERNEST L. Case report, 772
—. The Frankfort-mandibular plane angle and the facial pattern, 516
JOHNSON, JOSEPH E. The use of the twin-wire mechanism in treating Class II, Division 2 cases of malocclusion, 245

L

LEWIS, PAUL D. Space closure in extraction cases, 172

M

MALONE, ANTHONY J. (*See* Massler and Malone), 351
MARKUS, M. B. A study of the angular relationship in the upper and lower anterior teeth, 281
MASSLER, MAURY, AND MALONE, ANTHONY J. Nail biting—a review, 351
MATTHEWS, GEORGE W. Inverted, unerupted supernumerary tooth, 299
MILLIETTE, GERALD T. Fundamental concepts in orthodontic education, 581
MOYERS, ROBERT EDISON. An electromyographic analysis of certain muscles involved in temporomandibular movement, 481
—, AND BAUER, JOSEPH L. The periodontal response to various tooth movements, 572

P

PASKOW, HERBERT. Orthodontic diagnosis questionnaire, 451
POLLOCK, H. C. "Orthodontics: questions and answers," 620
PREWITT, GEORGE H. The milk stool—an aid to caries control, 616

R

RECHTER, ALFRED. (*See* Shwalb and Rechter), 192
RICKETTS, ROBERT MURRAY. Variations of the temporomandibular joint as revealed by cephalometric laminagraphy, 877
ROGERS, ALFRED P. A restatement of the myofunctional concept in orthodontics, 845

S

SHEHAN, HARLOW LOUIS. The role of observation and simple treatment in the practice of orthodontics, 1
SHWALB, RICHARD A., AND RECHTER, ALFRED. Application of the photoelastic method of stress analysis to orthodontic tooth movement in bone, 192
SIKES, T. EDGAR, JR. Orthodontics as an adjunct to oral surgery, 608
SLY, WALTER J. Unerupted or impacted maxillary cuspid, 913
STOLZENBERG, JACOB. Suggestion: an adjunct in orthodontic treatment, 198
STRANG, ROBERT H. W. President's address, Northeastern Society of Orthodontists, 325
STRANGE, HOWARD E. European social orthodontics, 561
SWINEHART, D. ROBERT. The importance of the tongue in the development of normal occlusion, 813

T

TOEPFER, A. K. The use of isothermal plastics in orthodontics, 305

W

WEINBERGER, BERNHARD WOLF. Dr. Edward Hartley Angle—his influence on orthodontics, 596
WERNER, SIDNEY C. Some medical aspects of bone physiology which pertain to orthodontics, 428
WOOD, WILLARD M. Rehabilitation of the cleft palate patient, 348
WOODS, GUY A., JR. Changes in width dimensions between certain teeth and facial points during human growth, 676

Y

YOST, HOWARD. Improved design of the sliding sleeve attachment, 375
—. Sliding sleeve attachment, 58

SUBJECT INDEX

A

Abnormalities, antero-posterior, of jaws, in children between ages of two and five and a half years of age, survey of, 933 (Abst.)
dentofacial, some original investigations into pressure habits as etiological factors in, 37
Adhesion, dental cement: study of its property of, 701
Air Force seeking ASTP and V-12 trained dentists, 721
to commission medical professional women, 792
American Academy for the Advancement of Science, 873
of Science, 799
Association for Cleft Palate Rehabilitation, 240
of Orthodontists, 65, 156, 237, 319, 471, 632, 789, 869, 942
annual report of public relations committee of, 1950, 777
Central Section of, 239, 319, 392, 477, 557, 635, 719, 789
advance program for meeting of, 871
changes in bylaws of, 632, 870 (N. and N.)
committee report on certification of specialists, 1950, 785
in memoriam, 475 (N. and N.)
librarian's report, 1950, 866
president's address, 803
prize essay contest, 65, 158, 238, 869, 942
report of American Board of Orthodontics to, 1950, 465
of committee on education, 1950, 862
of nomenclature committee of, 1950, 780
of public health committee of, 1950, 784
of research committee, 1950, 864
research section meeting, 159, 238, 319
sessions of, 475 (N. and N.)
Board of Orthodontics, 65, 159, 237, 319, 476, 635, 789, 869, 942
case report display, 557
report of, to American Association of Orthodontists, 1950, 465
Dental Association, 70, 71, 396, 478, 558, 720, 799, 873
campaign to help need for new dental books abroad, 397
message from president of, 329
Analysis, facial, anthropometric method of, in orthodontics, 749
Anatomy and physiology of head and neck musculature, 831
oral, 314 (B. rev.)
Anchorage, cephalometrics and, some thoughts on, 135
extraoral, its indications, use, and application, 265
Anesthesia, conduction, infiltration and general, in dentistry, 318 (B. rev.)
Angle and Case, in orthodontics and orthodontists, 111
Dr. Edward Hartley—his influence on ordontics, 596
Angle, Frankfort-mandibular plane, and facial pattern, 516
Angular relationship, study of, in upper and lower anterior teeth, 281
Animal biology, introduction to, 467 (B. rev.)
Anthropometric method of facial analysis in orthodontics, 749
Appliance, universal, evolution of, 433
Appliances, fixed, types of, in surgical correction of developmental deformities of mandible, 127
Army civilian intern program, 241
senior dental student program, 202 applicants appointed in, 242
surgeon general announces reduction in training programs, 400
to hold instructor conference at Fort Sam Houston, 398
to recall 343 dental reserves, 792
Atomic medicine course opens at Jefferson Medical College, 322
Australian Dental Congress, twelfth, 872
Australopithecus prometheus, cranio-facial fragment of, 60 (Abst.)

B

Biology, animal, introduction to, 467 (B. rev.)
Birth records, plan to protect, 242
Bolton, Frances P., honored, 381
Bone physiology, some medical aspects of, which pertain to orthodontics, 428

C

Caries control, milk stool—aid to, 616
dental, pediatrician's responsibility in prevention of, 626 (Abst.)
incidence in relation to orthodontic therapy, 534
Case, Angle and, in orthodontics and orthodontists, 111
report, 766, 772

Cement, dental: study of its property of adhesion, 701
Central Section of American Association of Orthodontists, 239, 319, 392, 477, 557, 635, 719, 789
advance program for meeting of, 871
Cephalometric appraisal of treated mandibular displacement case in adult patient, 222
appraisals: use in daily clinical practice, 403
laminagraphy, variations of temporomandibular joint as revealed by, 877
Cephalometrics and anchorage, some thoughts on, 135
Chicago Association of Orthodontists, program of, for 1950 and 1951, 947
Child, difficult, doctor and, 155 (B. rev.)
school, bringing orthodontics to, 713 (Abst.)
welfare, 458
Children between ages of two and five and a half years of age, anteroposterior abnormalities of jaws in, survey of, 933 (Abst.)
Children's Bureau and Public Health Service, Federal Security Agency, 640
Federal Security Agency, 719, 794, 874
Dental Health Day, National, 241
Child's mouth, preparation of, for orthodontic treatment, 302
Class II, Division 2 cases of malocclusion, use of twin-wire mechanism in treating, 245
I neutroclusion, 587
Cleft palate patient, rehabilitation of, 342, 348
Clinical practice, daily, use of cephalometric appraisals in, 403
studies in development of dental height, 917
Colorado's "dentist of the half century," orthodontist named, 559
Columbia University, Orthodontic Alumni Society of, 719
Cranio-facial fragment of Australopithecus prometheus, 60 (Abst.)
Crosby, Dr. Albert, memorial dedication, 396 (N. and N.)
Cuban Association of Orthodontists, 161
Cuspid, maxillary, unerupted or impacted, 913

D

Deciduous molars, depression of, on question of, 468 (Abst.)
Defense organization, civil, urged by Army doctor, 162
Deformities, developmental, of mandible, orthodontic considerations in surgical management of, 121
Dental cement: study of its property of adhesion, 701
height, clinical studies in development of, 917
Medicine, Seventh Annual Seminar for the Study and Practice of, 640
practice, survey of, 321
Dental—Cont'd
research assistantships, new program of, for postgraduate students of chemistry, 321
Dentist and orthodontist—study in integration, 207
Dentists' incomes, survey of, 162
Dentition, East Greenland Eskimo, 469 (B. rev.)
of Macaca mulatta, development of, 723
Dentofacial abnormalities, some original investigations into pressure habits as etiological factors in, 37
Denver Summer Seminar, 320, 396, 478, 558, 639
Development of dental height, clinical studies in, 917
of dentition of Macaca mulatta, 723
Diagnosis of malocclusion relative to extraction, some considerations on, 19
questionnaire, orthodontic, 451
Dimensions, width, changes in, between certain teeth and facial points during human growth, 676
Doctor and difficult child, 155 (B. rev.)
Dutch Society for the Study of Orthodontics, 947

E

Editorial and publication board, report of, 463
Education, orthodontic, fundamental concepts in, 581
in orthodontics and orthodontists, 115
report of committee on, American Association of Orthodontists, 1950, 862
Electromyographic analysis of certain muscles involved in temporomandibular movement, 481
Embryology, oral histology and, 317 (B. rev.)
Environment, heredity, and evolution, 552 (Abst.)
Eskimo dentition, East Greenland, 469 (B. rev.)
Ethics, professional, 419
Etiological factors in dentofacial abnormalities, some original investigations into pressure habits as, 37
Etymology, medical, 316 (B. rev.)
European social orthodontics, 561
Evolution, heredity, environment, and, 552 (Abst.)
of universal appliance, 433
Extraction cases, space closure in, 172
some considerations on diagnosis of malocclusion relative to, 19
Extraoral anchorage, its indications, use, and application, 265

F

Facial analysis, anthropometric method of, in orthodontics, 749
pattern, Frankfort-mandibular plane angle and, 516
points during human growth, changes in width dimensions between certain teeth and, 676
reconstructions, 467 (Abst.)

Federal Security Agency, Children's Bureau, 874
and Public Health Service, 640
Florida Orthodontic Study Group, 395
Forces, muscular, acting on teeth, instrument for measuring, 856
Foreign body, case report of tooth substance completely developed about, 215
Frankfort-mandibular plane angle and facial pattern, 516

G

Gould medical dictionary, Blakiston's new, 788 (B. rev.)
Great Lakes Society of Orthodontists, 477, 557, 719, 789
president's address, 165
tentative program of twenty-first annual meeting of, 636
Growth failure in school children as associated with vitamin B_{12} deficiency—response to oral therapy, 314 (Abst.)
heredity, and observation as related to extraction procedures, 899
human, changes in width dimensions between certain teeth and facial points during, 676

H

Habits, breaking of, in suggestion: adjunct in orthodontic treatment, 204
pressure, some original investigations into, as etiological factors in dentofacial abnormalities, 37
Head and neck musculature, anatomy and physiology of, 831
Health service, orthodontics as, 336
Height, dental, clinical studies in development of, 917
Heredity, environment, and evolution, 552 (Abst.)
growth, and observation as related to extraction procedures, 899
Hinman, Thomas P., Mid-Winter Clinic, 66, 160, 238
Histology and embryology, oral, 317 (B. rev.)
Human growth, changes in width dimensions between certain teeth and facial points during, 676

I

In memoriam, American Association of Orthodontists, 475 (N. and N.)
Harold C. Beal, 386
William Augustus Clarke, Sr., 386
George Wellington Grieve, 231
Philip T. Meaney, 149
Thomas Thompson Moore, Jr., 387
William Herndon Pearson, 59
William Gross Sheffer, 312
Isothermal plastics, use of, in orthodontics, 305
Italian Convention on Stomatology, 239, 320, 396, 478, 558, 641

J

Jaws, antero-posterior abnormalities of, in children between ages of two and five and a half years of age, survey of, 933 (Abst.)
mouth and, surgery of, 316 (B. rev.)
Johnson Alumni Club, 309
Club, 161
Joint, temporomandibular, variations of, as revealed by cephalometric laminagraphy, 877

K

Kesling positioner, some observations on history and uses of, 368

L

Labiolingual postgraduate course, 240
Laminagraphy, cephalometric, variations of temporomandibular joint as revealed by, 877
Librarian's report, American Association of Orthodontists, 1950, 866
Loughridge, Jack Monroe, 946 (N. and N.)

M

Macaca mulatta, development of dentition of, 723
Malformations, congenital, after exposure to measles in early pregnancy, 388 (Abst.)
Malocclusion, Class II, Division 2 cases of, use of twin-wire mechanism in treating, 245
some considerations on diagnosis of, relative to extraction, 19
Mandible, developmental deformities of, orthodontic considerations in surgical management of, 121
Mandibular displacement case, treated, in adult patient, cephalometric appraisal of, 222
Massachusetts, Commonwealth of, message from governor of, 593
Maxilla and mandible, developing, pressure habits as they affect, in etiology of dentofacial abnormalities, 40
Maxillary cuspid, unerupted or impacted, 913
Measuring muscular forces acting on teeth, instrument for, 856
Mechanism, twin-wire, use of, in treating Class II, Division 2 cases of malocclusion, 245
Medical aspects of bone physiology, some, which pertain to orthodontics, 428
Care Program, 72
dictionary, Blakiston's new Gould, 788 (B. rev.)
etymology, 316 (B. rev.)
Medicine, Dental, Seventh Annual Seminar for the Study and Practice of, 640
Milk stool—aid to caries control, 616

Molar, third, considerations, 445
Molars, deciduous, depression of, on question of, 468 (Abst.)
Mongolism, prenatal maternal factors in, 388 (Abst.)
Mouth and jaws, surgery of, 316 (B. rev.)
breathing, suggestion therapy for, in suggestion: adjunct in orthodontic treatment, 203
Movement, temporomandibular, electromyographic analysis of certain muscles involved in, 481
Movements, tooth, various, periodontal response to, 572
Muscles, certain, involved in temporomandibular movement, electromyographic analysis of, 481
Muscular forces acting on teeth, instrument for measuring, 856
Musculature, head and neck, anatomy and physiology of, 831
Myofunctional concept in orthodontics, restatement of, 845

N

Nail biting—a review, 351
National Children's Dental Health Day, 241
Neck musculature, head and, anatomy and physiology of, 831
Neutroclusion, Class I, 587
News and notes, 65, 156, 237, 319, 392, 471, 557, 632, 719, 789, 869, 942
Nomenclature committee of American Association of Orthodontists, 1950, report of, 780
Normal occlusion, importance of tongue in development of, 813
Northeastern Society of Orthodontists, 159, 238, 378, 392, 478, 558, 635, 719, 789, 943
president's address, 325
Northwestern University Dental School, 559, 639
Orthodontic Seminar, 70
Notes of interest, 73, 163, 243, 323, 401, 479, 559, 641, 721, 801, 875, 947

O

Observation and simple treatment, role of, in practice of orthodontics, 1
heredity, growth, and, as related to extraction procedures, 899
Occlusal relation, optimum, position of, in simplicity in orthodontic concept and treatment, 648
Occlusion, normal, importance of tongue in development of, 813
Office routines, 81
Officers of orthodontic societies, 74, 164, 244, 324, 402, 480, 560, 642, 722, 802, 876, 948
Ohio State University, new postgraduate course in orthodontics at, 395
Open-bite, prognathic, and lateral displacement cases, determination of size and shape of bone segments to be removed in, in surgical correction of developmental deformities of mandible, 121
Oral anatomy, 314 (B. rev.)
histology and embryology, 317 (B. rev.)
surgery, orthodontics as adjunct to, 608
Orthodontic concept and treatment, simplicity in, 643
considerations in surgical management of developmental deformities of mandible, 121
diagnosis questionnaire, 451
education, fundamental concepts in, 581
societies of world and principal officers, list of, 75
therapy, caries incidence in relation to, 534
tooth movement in bone, application of photoelastic method of stress analysis to, 192
treatment, preparation of child's mouth for, 302
suggestion: adjunct in, 198
Orthodontics and orthodontists, 109
Angle, Dr. Edward Hartley—his influence on, 596
anthropometric method of facial analysis in, 749
as adjunct to oral surgery, 608
as health service, 336
bringing to school child, 713 (Abst.)
European social, 561
principles of, 867 (B. rev.)
psychosomatic considerations in, 292
restatement of myofunctional concept in, 845
role of observation and simple treatment in practice of, 1
some medical aspects of bone physiology which pertain to, 428
use of isothermal plastics in, 305
"Orthodontics: questions and answers," 620
Orthodontist, dentist and—study in integration, 207
Osseous structures, effects of pressure on, in etiology of dentofacial abnormalities, 37

P

Pacific Coast Society of Orthodontists, 159, 393
Central Section, 637, 944
Northern Section, 637
obituaries taken from bulletin of, 946 (N. and N.)
Southern Section, 638, 945
twenty-second general meeting, 946
Palate, hard, direction and type of transverse palatine suture and its relation to form of, 233 (Abst.)
Pan American Odontological Association, 478, 558, 641
Patient, adult, cephalometric appraisal of treated mandibular displacement case in, 222

Patient—Cont'd
-parent-doctor relationship, more pleasant, psychological factors that bring about, 102
Pediatrician's responsibility in prevention of dental caries, 626 (Abst.)
Periodontal response to various tooth movements, 572
Philadelphia Society of Orthodontists, 68
Photoelastic method of stress analysis, application of, to orthodontic tooth movement in bone, 192
Physiology, anatomy and, of head and neck musculature, 831
bone, some medical aspects of, which pertain to orthodontics, 428
Pictures, sleeping, of children at predetermined intervals during night, development of mechanism for taking, in pressure habits in etiology of dentofacial abnormalities, 43
Plane angle, Frankfort-mandibular, and facial pattern, 516
Positioner, Kesling, some observations on history and uses of, 368
President's address, American Association of Orthodontists, 803
Great Lakes Society of Orthodontists, 165
Northeastern Society of Orthodontists, 325
Southern Society of Orthodontists, 77
Pressure habits, some original investigations into, as etiological factors in dentofacial abnormalities, 37
Principles of orthodontics, 867 (B. rev.)
Profession, challenge to, digest of, 546
Professional ethics, 419
Prognathic, open-bite, and lateral displacement cases, determination of size and shape of bone segments to be removed in, in surgical correction of developmental deformities of mandible, 121
Psychological factors that bring about more pleasant patient-parent-doctor relationship, 102
Psychosomatic considerations in orthodontics, 292
Public health committee of American Association of Orthodontists, 1950, report of, 784
Service, Children's Bureau and, Federal Security Agency, 640
relations committee of American Association of Orthodontists, annual report of, 1950, 777

Q

Questionnaire, orthodontic diagnosis, 451

R

Reconstructions, facial, 467 (Abst.)
Rehabilitation of cleft palate patient, 342, 348
Relationship, angular, study of, in upper and lower anterior teeth, 281
Relationship—Cont'd
patient-parent-doctor, more pleasant, psychological factors that bring about, 102
Report, annual, of public relations committee of American Association of Orthodontists, 1950, 777
committee, on certification of specialists, American Association of Orthodontists, 1950, 785
of American Board of Orthodontics to American Association of Orthodontists, 1950, 465
of Committee on Education, American Association of Orthodontists, 1950, 862
of editorial and publication board, 463
of librarian, American Association of Orthodontists, 1950, 866
of nomenclature committee of American Association of Orthodontists, 1950, 780
of public health committee of American Association of Orthodontists, 1950, 784
of research committee, American Association of Orthodontists, 1950, 864
Research committee, American Association of Orthodontists, 1950, report of, 864
Retainers, timesaving technique for processing, 763
Retrusion cases, extreme mandibular, determination of angulation of cuts in, in surgical correction of developmental deformities of mandible, 126
Rocky Mountain Society of Orthodontists, 66, 790

S

School child, bringing orthodontics to, 713 (Abst.)
Schools, dental, in orthodontics and orthodontists, 118
Sleeping positions, means of aiding patient in overcoming, in pressure habits in etiology of dentofacial abnormalities, 45
Sliding sleeve attachment, 58
improved design of, 375
Social orthodontics, European, 561
Southern Society of Orthodontists, 67, 319, 392, 478, 558, 635, 719, 790
president's address, 77
Southwestern Society of Orthodontists, 66, 239, 320, 635, 719, 789, 872
Space closure in extraction cases, 172
Specialists, certification of, committee report on, American Association of Orthodontists, 1950, 785
Speech therapy, in suggestion: adjunct in orthodontic treatment, 204
Splint construction, in surgical correction of developmental deformities of mandible, 133
Splints, removable acrylic, in surgical correction of developmental deformities of mandible, 130

Supernumerary tooth, inverted, unerupted, 299
Surgeon General urges prompt application for commission, 947
Surgery of mouth and jaws, 316 (B. rev.)
oral, orthodontics as adjunct to, 608
Surgical management of developmental deformities of mandible, orthodontic considerations in, 121
Suture, transverse palatine, direction and type of, and its relation to form of hard palate, 233 (Abst.)

T

Technique, timesaving, for processing retainers, 763
Teeth, certain, and facial points during human growth, changes in width dimensions between, 676
upper and lower anterior, study of angular relationship in, 281
Temporomandibular joint, variations of, as revealed by cephalometric laminagraphy, 877
movement, electromyographic analysis of certain muscles involved in, 481
Therapy, orthodontic, caries incidence in relation to, 534
Third molar considerations, 445
Thumb-sucking, 150 (Abst.)
Tongue, importance of, in development of normal occlusion, 813
Tooth movement in bone, orthodontic, application of photoelastic method of stress analysis to, 192
movements, various, periodontal response to, 572
substance completely developed about foreign body, case report of, 215
supernumerary, inverted, unerupted, 299
Treatment, orthodontic concept and, simplicity in, 643
preparation of child's mouth for, 302
suggestion: adjunct in, 198
simple, role of observation and, in practice of orthodontics, 1
Tufts Graduate Orthodontic Study Club, 69
Twin-wire mechanism, use of, in treating Class II, Division 2 cases of malocclusion, 245

U

Universal appliance, evolution of, 433

V

Vitamin B_{12} deficiency, growth failure in school children as associated with—response to oral therapy, 314 (Abst.)

W

Walls, James Thompson, 946 (N. and N.)
Width dimensions between certain teeth and facial points during human growth, changes in, 676
